Standard Chart of Accounts (and Data Dictionary)

(National – MAY 2011)

Statement of Intent

This Standard Chart of Accounts (SCOA) and Data Dictionary are designed as a tool to assist nonprofit organisations, and funders (including government departments and agencies). The initial design was for those small to medium non government organisations (NGOs) which receive government funding without the benefit of internal professional participation. It has become apparent that others may find the SCOA of benefit especially in the use of the data dictionary. A number of medium to large organisations have taken the data dictionary as a guide for their charts of accounts and modified to suit and where appropriate adding extra accounts that are not defined in the SCOA. Some organisations have other requirements which require expansion into sub accounts for extra items and use of cost centre accounting for organisational projects and programs (both funded and unfunded).

This SCOA provides a consistency in accounting categories and terms used within NGOs. In turn, this allows government departments to aggregate and compare financial data for policy development and administration costs are significantly reduced in both the government and nonprofit sectors.

The numbering in the SCOA is flexible. It is guided by a number of commercially available accounting packages and all accounts mentioned will not be required by all organisations that use the chart. The overall numbering system follows a generally accepted principles approach of Assets = 1, Liabilities = 2 etc. Expenses are not further classified but rather included in an alphabetical order. This approach accommodates the multiple categories that any organisation may encounter especially in respect of acquittals to government agencies. Many organisations make acquittals to several departments and consensus prevailed with the alphabetical approach as most acceptable and flexible. This design is suggested to report in the “flattest” form for acquittal to departments and may be collated to meet the reporting requirements of internal management, the organisation and other various stakeholders.

There are references to the current Australian Accounting Standards (and by default, IFRS) and these references are as included on the Accounting Standards Board website in June 2010. Updates to these references will need to occur on a regular basis. There is also reference to the relevant legislation items both nationally and state based. Each jurisdiction has different legislation, regulations, model rules and/or constitutions which relate to the formation requirements of NGOs. The primary legislation for each jurisdiction is: Australian Capital Territory (ACT) - *Associations Incorporation Act 1991*; Commonwealth (Cth) - *Corporations Act 2001*; New South Wales (NSW) - *Associations Incorporation Act 2009*; Northern Territory (NT) - *Associations Act 2003*; Queensland (QLD) - *Associations Incorporation Act 1981*; South Australia (SA) - *Associations Incorporation Act 1985*; Tasmania (Tas) - *Associations Incorporation Act 1964*; Victoria (Vic) - *Associations Incorporation Act 1981*; Western Australia (WA) - *Associations Incorporation Act 1987*. Other legislation relating to fundraising, gaming, collections or charitable collections are included at various data dictionary account entries (as applicable).

The SCOA is intended to complement or supplement the legislation as much as possible and acknowledges that there are some variations in requirements of organisations which may be required to be reflected in a SCOA. A number of national projects where harmonisation is being considered include fundraising, gaming, work cover/workers compensation and carbon trading will require future update and streamlining of the National SCOA.

The SCOA is not a reporting tool but the basis to assist organisations in multiple report formats. The SCOA and Data Dictionary have been developed over a number of years through consultations throughout the nonprofit sector, the nonprofit peak bodies, advisors to the nonprofit sector and various government agencies at all levels. Through the process, various government agencies have agreed to lead their jurisdiction and the key contact areas are included on the QUT website at: [Government & Assistance links](#). The [QUT Standard Chart of Accounts](#) website is at: <https://wiki.qut.edu.au/display/CPNS/Standard+Chart+of+Accounts>.

QUT ACPNS also operate a [SCOA Blog](#) which is for use by the project team, nonprofit organisation users, government users and interested parties is at: <http://blog.bus.qut.edu.au/scoa/>.

This document is the culmination of the SCOA documents created for each of the states of New South Wales, Queensland, Western Australia, Victoria, South Australia, Tasmania and the Northern Territory. This May 2011 version of the National SCOA aligns those previously-mentioned jurisdictions with the requirements of Regulatory Reform of the Not-for-Profit Sector Implementation Plan Milestone 2010-11 Stage 2. The ACT and the Commonwealth have not been included in this version (other than to mention the formation legislation) but they have attested that both jurisdictions are compliant with the otherwise nationally consistent SCOA including gaming and fundraising elements.

This May 2011 version takes the National April 2010 SCOA version and consolidated the South Australian, Tasmanian and the Northern Territory development, consultations and considerations.

ASSETS 1-0000				
MYOB Account Number	Suggested Account Name	Data Dictionary/Description of Account	IFRS Accounting Standards References	Other Comments
1-0000	Assets	Assets are resources controlled by the entity as a result of past events and from which future economic benefits are expected to flow to the entity.	Framework paras 49.1, 53-59	
1-1100	Current Assets	Current assets are all assets with future economic benefit expected to become available or used within the next 12 months. May be itemised as Major or Minor Assets if required.	AASB 101.60-61; 101.66	
1-1110	Cash at Bank - Restricted	Restricted cash represents funds to be used for a specific purpose, which relates to program or project or outcomes. This account includes any roll-over funds and funds not yet allocated for a specific purpose whilst still relating to a program/project/s. This would include interest bearing deposits such as a building sinking fund and would usually be a "sub" account with the reconcilable accounts. Organisations should itemise by the nature of the restriction. If this amount is in negative, it is reported here. Note that negative cash at bank is often referred to as bank overdraft (and listed as a negative asset).	AASB 101.66(d), AASB107.6	Restricted and unrestricted is not specifically required by the Standards and usually applies through grant agreements. These accounts will usually be set up in accordance with the banking arrangements and this account may be a header with detailed accounts under. The structure will also be determined by the reconcilability of the accounts within the accounting system. It is not generally practical to hold restricted funds in a separate account – organisations should seek advice from their funders and auditors.

Some organisations may use sub accounts and itemise by account. If this amount is in negative, it is reported here. 1-1140	Petty Cash	This account represents the amount of petty cash on hand at the end of the reporting period. It does not include cash at bank or till floats (1-1150). (Petty Cash and Cash Float should equal Cash on Hand which may be a header account).	AASB 101.66(d)

(This excludes rental debtors and staff debtors.)	AASB 101.54(h); 101.78(b)	A Debtors sub ledger may be used by an organisation as its members register and if that is the case, there would be separate Accounts Receivable and Provision for Doubtful Debts accounts set up to accommodate these in the same manner as the rental and staff debtors.
1-1220	Less: Provision for Doubtful Debts	This item (also known as Allowance for Doubtful Debts) is an estimate of the amount of debts not expected to be received in respect of outstanding debts.	AASB 101.54(h); 101.78(b)

Organisations may be required to distinguish between "controlled" and "administered" non-current assets. If this is the case, the accounts should be 'split' to make this distinction under a header arrangement (of "Land") with detail accounts such as "Land Administered" and Land Controlled" This would also be shown in the detailed Asset Register of the organisation.	AASB 101.60-61 AASB136

Each year, the list is reviewed and any investments expected to be sold within the next 12 months should be moved to the relevant Current Assets account. It is good practice for organisations to maintain a separate register for all asset classes and that this account be a summation of all long term investments (one asset class). This account includes Investment properties as a separate account.	AASB 101.54(e) AASB139

<i>MYOB Account Number</i>	<i>Suggested Account Name</i>	<i>Data Dictionary/Description of Account</i>	<i>IFRS Accounting Standards References</i>	<i>Other Comments</i>
5-0000	Cost of Goods Sold	The cost price of the goods sold during the financial year by the nonprofit organisation. This is a high level framework where accounts should be expanded as needed for the nonprofit organisation. Nonprofit organisations with shops, retail centres, merchandising, bars, and hospitality centres will require COGS or Cost of Sales categories in their ledgers. Organisations without these activities will not require this category and therefore do not need to include in their structure. Cost of sales for the Arts sector specifically includes goods for resale such as artworks and books.	AASB102 - note Aus for not-for-profit organisations particularly Aus34.1 and 36.1	
5-0100	Opening Stock	This account represents the opening value of stock owned by the nonprofit organisation. This amount is determined by rolling over the value of closing stock at the end of the previous financial year. This can be broken down into various sub-accounts such as food, merchandise, bar and drinks	AASB 102.36(b)	
5-0200	Purchases	This account represents the purchases made by the nonprofit organisation during the financial year. This can be broken down into various sub-accounts. Includes materials purchased, if the nonprofit organisation makes its own products, rather than buying them. A separate account could be used for Brochures and promotional material that is excluded from 6-0520. Use the Header/Detail account process/range for these accounts. It is expected that this category would be a header with several detail accounts as required by the nonprofit organisation.	AASB 102.36(d)	Any salaries and wages associated here must be recorded as expenses and not cost of sales.
5-0300	Freight Inwards	The cost of transportation and freight relating to goods purchased (not sold) by the nonprofit organisation.		
5-0400	Less: Closing Stock	This account represents the value of closing stock as at the end of the financial year and must also be measured at the lower of cost and net realisable value.	AASB 102.9,23-33	
	Cost of Goods Sold	This calculation is done by the nonprofit organisation's accounting software/system and is configured when the "company" or "organisation" is set up in the software.

6-0000	Expenses	<p>This is a heading within the structure of accounts within the accountings software. Expenses are outflows or depletions of assets or occurrences of liabilities that result in decreases in equity other than those relating to equity. Organisations may elect to record "in kind" transactions in expense accounts and should have an equal and opposite Income account for the value for a nil nett result. Generally small to medium organisations do not recognise these items in their accounts. The accounts included here are in alphabetic order. Some organisations may require their reporting to be collections of accounts and that is their prerogative.</p> <p>Note: Generally cost recovery should be recognised as an income item. Some agreements require a "negative" expense reducing the actual amount recorded by the organisation. If this is the case, the original cost should be recorded as the expense (e.g. airline ticket against Travel & Accommodation (6-0710) and the cost recovery from the volunteer or participant to be against the same account and with a Nett effect (usually of nil)). It is recommended that if cost recoveries are "normal and usual" practice, that the organisation sets up sub-accounts to the expenses to track activities.</p>	Framework par 70(b)	Any employee costs should be included in salaries and wages and should be reported under other expense categories such as any of the "fees".
6-0010	Accounting Fees	This account represents accounting and bookkeeping fees. 6-0030	Amortisation Expense	This account is the amortisation expense calculated for the current year relating to intangible assets. Depending on the organisation, this account may be updated on a monthly, quarterly, six monthly or annual basis.	AASB 138.118(d)	

6-0040	Assets Purchased <\$5,000	The amount of \$5,000 is arbitrary and reliant on the organisation's asset policy; a different limit may be set by the organisation as part of its policy. This account shows all assets (including computers) purchased by the nonprofit organisation that have an individual value of less than \$5,000 each such as cemetery shovels, uniforms for sporting clubs, tables and chairs for meeting rooms. Any asset above \$5,000 is to be capitalised and shown as an asset in the Balance Sheet. Some items that are expensed may still need to be recorded in the Fixed Asset Register. A separate account may be set up for assets over the threshold as a holding account during the year - assets that would be included in this extra account would be capitalised at year end. This account may be a header account with detailed sub-accounts such as IT purchases < \$5,000 each, Furniture and Fittings < \$5,000, Sporting equipment < \$5,000, Art equipment < \$5,000, Art < \$5,000.		Each organisation should also consider the ATO difference between asset and equipment - this will depend on the organisational activities. If an organisation has a different amount to \$5000, this should be used in the account name.
6-0050	Audit Fees	This account <i>includes</i> fees directly associated with an audit of financial statements. It <i>excludes</i> accounting or bookkeeping fees (these are included in Accounting Fees (6-0010)).	AASB 101.AUS 138(a)	
6-0060	Auspicing Fees	This account represents fees paid by a non-profit organisation to another organisation for providing auspicing support. The auspicing organisation signs agreements, carries financial risk and legal responsibility for activities of the auspiced organisation. It also includes internal auspicing fees. That is auspicing may be internal across the whole organisation or it may be with an external organisation. These are true auspicing rather than recoupment of administrative and project expenses. Organisations may choose to have multiple accounts for auspicing to manage these from an organisational perspective.		
6-0070	Bank Charges	This account represents all charges associated with the various bank accounts held by a nonprofit. * It <i>includes</i> State Government Tax, account keeping fees, EFTPOS fees, etc. * It <i>excludes</i> credit card fees (which are recorded in a separate account).

Some organisations may wish to use this as a header breaking down specific accounts for management purposes.</p>
